The 5 people in a “Faith Web” do not have to be local members of the same church. They can be close relatives, neighbors, family friends, etc. This 5:1 ratio is also not a guarantee or equation. But it IS a goal for offering the strongest journey and support system for tomorrow. It may even need to be updated as a student grows.

As a church, we recognize that our young people come from a variety of backgrounds. You might be a teenager reading this, who realizes there is no one at home you could list on your “Faith Web”. You might be a parent who could easily fill out the blanks. You might be a grandparent, or guardian, who is excited to figure this out. You might be a parent who is new to the faith, & wants to grow!

## WHO IS IN YOUR WEB?

We believe one of the BEST ways to prepare our young people with a faith that will STICK through college & young adult years, is to connect them in relationships. Each young person should be purposefully connected in active relationships with at least 5 older adults who share the same beliefs & live by them.
